

AnimalLocatorMock.apxc:

```
@isTest
global class AnimalLocatorMock implements HttpCalloutMock {
// Implement this interface method
global HTTPResponse respond(HTTPRequest request) {
// Create a fake response
    HTTPResponse response = new HTTPResponse();
    response.setHeader('Content-Type', 'application/json');
    response.setBody('{"animals": ["majestic badger", "fluffy bunny",
    "scary bear", "chicken", "mighty moose"]}');
    response.setStatusCode(200);
    return response;
}
}
```
